Email Subject Line	Week4-Update-Recitation-015-TeamNumber-01
Project Board	Make sure all your user stories are updated with proper ● **User Story Name** ● **User Story Description** ● **User Story Acceptance Criteria** ● **Story Points** ● **Epic Name** ● **Status - Mark it as complete**
Presentation Link	Link to your project presentation slides **(SENA)** **https://www.canva.com/design/DAFhz6Ll35E/CuVFHmukbvcZ07R3r6J--g/edit?utm_content=DAFhz6Ll35E&utm_campaign=designshare&utm_medium=link2&utm_source=sharebutton**
Functional Features	Briefly explain all the working features of your application. If you haven't completed all the features, Please list all the TODOs and pending tasks. Leaderboard: - Displaying friends images - Search Friend Calendar: - Adding, Updating, Deleting Events on the front end as well as the back end - Pop up modals with pre-populating data for update modals - TODO- add dropdown section for selecting workouts Friends List: - Adding friends to a database - Displaying friends on leaderboard Workouts page: - Uses Workout API to grab workouts - Seperated into 3 columns - Has functional buttons to add workouts to calender - TODO: 3 distinguished columns for featured workouts, my workouts, and workout shop - Sweats implemented.

Individual Commits	Create a table with your **name** and the **number of commits** that you have done for this week and also **add a brief note** mentioning what feature/s did you work on.

Name	Number of commits	Notes
Alex Philipsen	2	Added friends list display Added ability to save workouts There is only 2 commits because the features I was working on would not function if partially implemented
Sena Uctuk	15	Fixed Merge conflicts with Index.js, workouts.ejs and header.ejs Added Buttons to pages Implemented UI for workouts page
Jamie Anderson	29	Finished workouts 'mark complete' button so that it updates the number of sweats displayed and in the database Completed login and register page
Imad Dar	3	Implemented Calendar UI/UX Implemented Calendar Backend (database + routes) Fixed add to calendar button on workouts.ejs (lack of commits due to large amounts of code necessitating it all be done at once)
Wangcong Xuan	4	Finished UI of Leaderboard

			page Implemented modals for leaderboard Recommendation & Find Friend Buttons Debug on modals

Team Contribution	Create a table similar to the above and mention the tasks that you worked to help the team. (e.g. Debugging/ helping others to fix the issue, Updating project board / Meeting notes etc.)

Name	Tasks
Alex Philipsen	Adding friends list display to leaderboard Saving workouts to the database Redirect bug fixing Tests from test plan
Sena Uctuk	Worked on UI for workouts page, implemented the column format Debugged Workouts Did Week 4 update Creating project Presentation Creating error for Incorrect Login
Wangcong Xuan	UI for the leaderboard page Set the image path to be used in index.js Modals for the leaderboard page Feed and Leaderboard area
Imad	Fully implementing Calendar UI + backend database and routes Add to calendar button fixed Bug fixing when clicking on navbar for calendar when not signed in
Jamie	Fixed errors in login Fixed errors with register Created 'mark complete' button on workouts Connected sweats from workouts page to database

Concerns	Please let me know if you have any concerns
